Pursuant to Article 13 of the EU Regulation n. 2016/679 (hereafter "GDPR 2016/679"), laying down provisions for the protection of individuals with regard to the treatment of personal data, we wish to inform you that the personal data you provide will form the subject of treatment in compliance with the aforementioned legislation.

1. The data controller

The data controller is NAMCO CO S.r.l (Tax Code and VAT No. 01000370450) in Massa (MS), Via San Colombano 10 (hereinafter referred to as the "Controller")

2. Categories of personal data

The personal data concerning the subjects interacting with the website pages are processed. Among these:

- The data provided voluntarily by the user

The data provided voluntarily by the user of the website through the compilation of the web form.

- The navigation data

The computer systems and the software procedures used to operate the website www.namcoco.it acquire, during their normal operation, some personal data whose transmission is implicit in the use of the communication protocols of the Internet. This information is not collected to be associated with identified interested parties, but which by their very nature could, through the processing and the association with other data held by third parties, allow users to be identified. This category of data includes IP addresses or domain names of the computers used by users connecting to the website, URL and URI of the requested resources, the time of the request, the size of the file obtained in response and other parameters related to the operating system and the IT environment of the user. These data are used for the sole purpose of obtaining anonymous statistical information on the use of the website and to check its correct functioning and are deleted immediately after processing.

-Cookies

Our website also uses some cookies. Cookies are small text files that the websites visited by the user (but also other websites or webserver) send and record on your computer to be then vice versa retransmitted to the same websites (or webserver), at the subsequent visit of those, sending thus information. Cookies are now essential tools as they allow modern websites to work best, allowing maximum customization, interaction and fluency in navigation. They can also be used to monitor user navigations and then send advertising messages in line with those.
